

V-TAPP 2026 , 11th and 12th Sept, 2026

Detailed Event Proposal

Event Information

Category: (Competition / Hackathon / Workshop / Seminar / Experience)	Competition
Event Name:	Doomsday Algorithm
Proposal By: (Club / Chapter / Faculty)	Data Science Club
Faculty Coordinator(s):	Dr. Yada Nandukumar
Faculty Email:	nandukumar.y@vitap.ac.in
Faculty Mobile:	+91 85388 49246
Student Coordinator: (if applicable):	Nathan James
Registration No.:	24BCD7150
Student Mobile:	7594 062 889
External Guest / Expert Involved (Yes/No)	No

Logistics

Venue Requirement: (Calss Room, lab, outdoor space, etc.)	Lab
Duration: (Hours/Days)	4 Hours

Event Description

Detailed Concept:

The MCU Doomsday Prediction Challenge Is a data-driven technical competition designed to provide students with an engaging platform to apply their Data Science and analytical skills to a real-world entertainment dataset. The event combines technical problem-solving with the popular Marvel Cinematic Universe (MCU) theme, making data analysis both competitive and interactive

Participants will be provided with a structured dataset containing Information such as character appearances, screen time, dialogue volume, character co-appearances, box-office performance, and post-credit scene data. Teams will use tools' such as Python, SQL, Excel, or R t'' explore

The dataset, identify meaningful patterns and trends, and generate visualizations that support their findings.

Based on their analysis, participants will formulate predictions about possible characters, team-ups, conflicts, or plot developments In Avengers: Doomsday.

Every prediction must be supported by insights obtained from the provided data, ensuring that the event focuses on evidence-based reasoning rather than simple guessing or MCU trivia.

The event aims to strengthen participants' practical understanding of data analysis,

visualization, pattern identification, and analytical reasoning, while encouraging creativity and effective presentation of technical findings in an interesting and accessible format.

Participation type: (Individual / Team)	Both
Expected number of Participation:	150
Event Duration: (in hours)	1.5

Estimated Budget

Item / Expense Head	Detailed Remark	Quantity	Rate (₹)	Cost (₹)
Prize Pool	Prizes for winners and runners-up	1	2000	2000
Posters / Standees	Event posters and promotional standees	2	500	1000
Kits / Components / Props	Participant stationery, printouts and event materials	1	850	850
Miscellaneous	Certificates, printing and other event requirements	1	150	150
Any Other	–	–	0	0
Total Estimated Budget	4000			
Expected Revenue	Registration/participation fees
